

# CORPORATE PROFILE

**Saudi Arabia | UAE | USA**

# **GREEN** CIRCLE

CONTRACTING COMPANY

**Integrated EPC & Technology Execution Partner  
Across Energy, Infrastructure and Oil & Gas**

Aligned with Saudi Vision 2030

# COMPANY OVERVIEW

**Green Circle Contracting Company is a multi-disciplinary Engineering, Procurement and Construction (EPC) organization delivering integrated solutions across energy, infrastructure, industrial and digital domains.**

Depending on project structure and client requirements, Green Circle operates as an EPC contractor, subcontractor, or specialist execution partner, supporting projects with disciplined delivery, strong HSE governance and quality assurance frameworks.

## **Highlight major industries driving growth.**

Established in 2019, Green Circle has rapidly evolved into a trusted regional execution partner supporting projects across Saudi Arabia, the UAE and the United States. Our integrated delivery model enables us to support projects from concept and design through execution, commissioning and long-term operations, aligned with project-specific contractual roles.

## **Key takeaways for stakeholders**

Driven by innovation, technical expertise and a strong commitment to quality and safety, Green Circle supports national development programs and complex infrastructure initiatives. Our flexible execution model, combined with strong governance and compliance, enables us to deliver value across diverse project structures aligned with Saudi Vision 2030 and global sustainability goals.

# HSE, QUALITY & COMPLIANCE

Safety and quality are embedded in every phase of our operations.

- Zero-Harm Health & Safety Culture
- Compliance with international standards and local regulations
- Proactive risk assessment and mitigation
- Continuous quality monitoring and improvement
- Environmentally responsible construction practices

Our HSE and QA/QC frameworks ensure reliable execution, reduced operational risk and consistent project performance.

# OUR IDENTITY

## What Defines Green Circle

- Integrated EPC & Technology execution capability
- Multi-sector expertise under one organization
- Regional presence with global standards
- Strong HSE, Quality & Compliance culture
- Long-term operations & maintenance focus

# ORGANIZATIONAL STRUCTURE & GOVERNANCE

## Executive Leadership

- Chairman
- Chief Executive Officer (CEO)
- Chief Operating Officer (COO)

## Engineering, Commercial & Support

- Engineering & Design (CAD, As-Built, Estimation)
- Commercial, Contracts & Procurement
- Finance, HR, IT & Compliance

## Project & Operations

- Project Director
- Project Managers
- Planning & Cost Control Engineers
- QA/QC Engineers & Inspectors
- HSE Manager & Site HSE Officers
- Site Engineers (Civil / Electrical / Mechanical / IT)
- Supervisors, Foremen & Skilled Workforce

Green Circle follows a scalable manpower mobilization model aligned with project size, scope and schedule.

# PROJECT DELIVERY & EXECUTION MODEL

Green Circle executes projects through a structured, controlled and client-aligned delivery framework

## Planning & Mobilization

- Scope definition & execution planning
- Approved methodology, schedule & sequencing
- Manpower mobilization aligned with milestones

## Execution & Control

- Site execution under QA/QC & HSE controls
- Daily, weekly and monthly progress reporting
- Client coordination and interface management

## Testing, Handover & Close-Out

- Inspection, testing & commissioning
- As-built documentation and handover
- Completion certificates (as applicable)

Execution is governed by strong HSE, quality assurance and compliance frameworks across all projects.

# VISION | MISSION | VALUES

## Our Vision

To be a trusted EPC and technology partner delivering sustainable, innovative and high-performance infrastructure solutions across global markets.

## Our Mission

To provide integrated EPC, engineering and digital infrastructure services through advanced technologies, skilled professionals and a zero-harm safety culture creating long-term value for clients and stakeholders.

## Our Core Values

- Safety First
- Quality Without Compromise
- Integrity & Transparency
- Commitment & Accountability
- Professional Excellence

# OUR CAPABILITIES

## Renewable Energy

- Utility-scale and rooftop solar PV
- Independent Power Producer (IPP) projects
- Design, construction and O&M
- Grid integration and energy storage

## IT & Digital Infrastructure

- IT infrastructure & data centers
- Enterprise networking & cybersecurity
- CCTV, ELV & security systems
- Telecommunications & 4G/5G solutions

## MEP, Electrical & Mechanical Systems

- HVAC & chilled water systems
- Electrical infrastructure and power distribution
- Plumbing, drainage and fire protection systems
- Testing, commissioning and compliance

## Civil Infrastructure & Building Construction

- Villas, commercial and industrial facilities
- Foundations and heavy reinforcement works
- Masonry, finishing and architectural works
- Interlock, marble and specialized finishes

# PROJECT EXPERIENCE & MARKET ALIGNMENT

Role across all projects: Subcontractor & EPC Support

## KINGDOM OF SAUDI ARABIA

### Utility-Scale Solar PV (IPP)

- **Ar Rass Solar PV Power Plant : Al-Qassim Region**

**Capacity:** ≈ 700 MW

Scope: EPC support, electrical works & site execution

- **Al-Khushaybi Solar PV Power Plant:  
(Al-Qassim Region)**

**Capacity:** ≈ 1,500 MW (1.5 GW)

Scope: EPC support, electrical & civil works

- **Taif Region Solar PV Projects : Makkah Region**

**Capacity:** ≈ 50– 300 MW

Scope: Electrical works & installation support

Status: Completed / Grid-connected

- Additional projects under NDA—details available upon request

## UNITED ARAB EMIRATES

### Renewable Energy

- **ECC 600 kW Rooftop Solar PV Project**

Role: EPC contractor

Scope: Engineering, installation & system integration

- Additional projects under NDA—details available upon request

## UNITED STATES OF AMERICA

### Commercial & Industrial Solar PV

- Multiple rooftop and ground-mounted solar PV installations

Role: EPC contractor

- Additional projects under NDA—details available upon request

# OPERATION & MAINTENANCE (O&M)

Our commitment extends beyond project delivery.

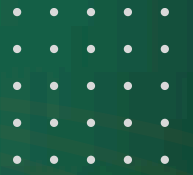

- Preventive & corrective maintenance
- 24/7 system monitoring and support
- Performance optimization and asset longevity
- SLA-driven operations

# WHY GREEN CIRCLE

- Integrated EPC & IT execution capability
- Proven project experience across KSA, UAE and USA
- Strong HSE, quality and compliance governance
- Alignment with Saudi Vision 2030 initiatives
- Flexible execution roles from design support to O&M
- Scalable solutions for complex and multi-stakeholder projects

# CHAIRMAN'S MESSAGE

At Green Circle, excellence is not an objective—it is a standard.

Our organization was founded with a clear vision: to deliver reliable, future-ready engineering solutions that support national growth, sustainability and technological advancement. Every project we undertake reflects our commitment to quality, safety and professional integrity.

The strength of Green Circle lies in its people, its systems and its ability to adapt to evolving industry demands. We continue to expand our capabilities across energy, infrastructure and digital domains, ensuring that our clients benefit from a truly integrated EPC partner.

We remain focused on building long-term partnerships and contributing meaningfully to the development ambitions of the regions we serve.
